

# MYSTIC LEATHER by aspenhome®

## HAND WIPE OFF SEMI-ANILINE TOP GRAIN LEATHER

Mystic leather gives any furniture style a warm, comfortable look. When leather hides are wiped off by hand, the lighter color shows through giving an impression of natural wear. This technique also highlights the grain, creating surface appeal. Available in a rich, dark classic color, Mystic leather features a pronounced grain pattern and robust two-tone aesthetic. A topcoat is added to help resist everyday stains and spills.
