

# ARDENT LEATHER by aspenhome®

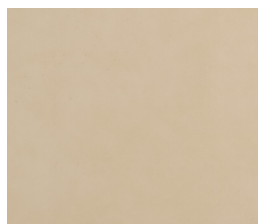

## TOP GRAIN LEATHER

Ardent leathers are incredibly soft and smooth, with an elegant simplicity that is sophisticated yet welcoming. An understated grain, monochromatic colors, and a low sheen provides a debonair and aesthetically pleasing appeal with enough natural texture still present and visible to represent a guarantee of the leather's authenticity. The low sheen topcoat also helps protect against everyday spills and stains. Ardent leathers are ideal for modern, active households.
