

# BURNISHED LEATHER

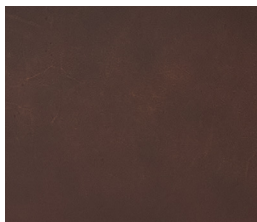

by aspenhome®

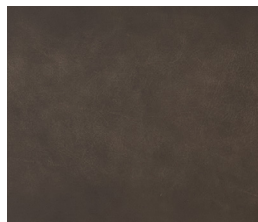

## HAND WIPE OFF SEMI-ANILINE TOP GRAIN LEATHER

Burnished leathers have the wonderful “worn-in” look inspired by the sublime ambience created by the natural patina that develops over the lifetime of leather furniture. The wiping process reveals an underlying color that forms a tone-on-tone facade when contrasted with the top color. The finish is self-sealing and will resist every day stains and spills. Burnished leathers are subtly aged and soft to the touch, complementing any traditional or vintage oriented style.

## AVAILABLE COLORS

BURNISHED UMBER

BURNISHED WALNUT
